Essay Question

Reflect on your leadership in the area of school improvement.

- Discuss the leadership skills you used
- Describe how a more personalized learning environment has been created for your students, how you involved all stakeholders—staff members, students, parents, and the community—in the process, and how that has improved curriculum, instruction and assessment practices at your school.
- Share outcomes to demonstrate that student learning has been improved and that a higher degree of stakeholder satisfaction exists.

Please respond to the essay question on separate sheet of paper (no more than 1,000 words).

Your essay should be narrative in nature, referencing key points of data to strengthen the responses.
